

# Andrii Zhygalko

## Full Stack Developer

### SUMMARY

Although my recent roles have been outside web development, I have always been deeply passionate about technology. To turn this passion into a career, I began with the Google IT Support Professional Certificate. This journey led me to discover a love for coding, prompting me to successfully complete a Fullstack Developer course. I am now eager to join a team of developers and contribute to innovative projects, bringing my enthusiasm and willingness to learn.
